

## Panel & Formwork Accessories

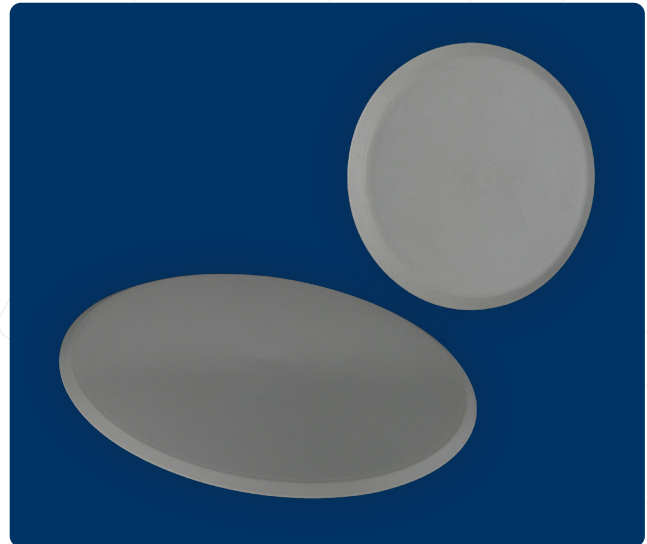

### Precast Panel ID Plates

Panel Identification Plates are ideal for marking concrete panels permanently. They are cast into panels for clear identification, quality control details and specifications.

If required, the Panel ID Plates can be removed after installation.

Product Code	Size (mm)	Qty/Bag
IDPLATE	180x75	100

### Ferrule Patch Caps

Concrete grey patches that are inserted into 20mm ferrules, when props have been removed from the panels. Eliminates grouting of the ferrule holes, even if the ferrules are not perpendicular to the panel face.

Patch Plates are coloured to a concrete grey and are simply adhered over the voids in the panels with a construction adhesive.

Product Code	Diameter (mm)	Qty/Bag
FWVC80	80	100
FWVC150	150	100
